Child friendly planning: Examples to visit in Munich

METAMORPHOSIS – transforming neighbourhoods with a
focus in children

METAMORPHOSIS

This project has received funding
from the European Union's
Horizon 2020 research and
innovation programme under
grant agreement No 723375

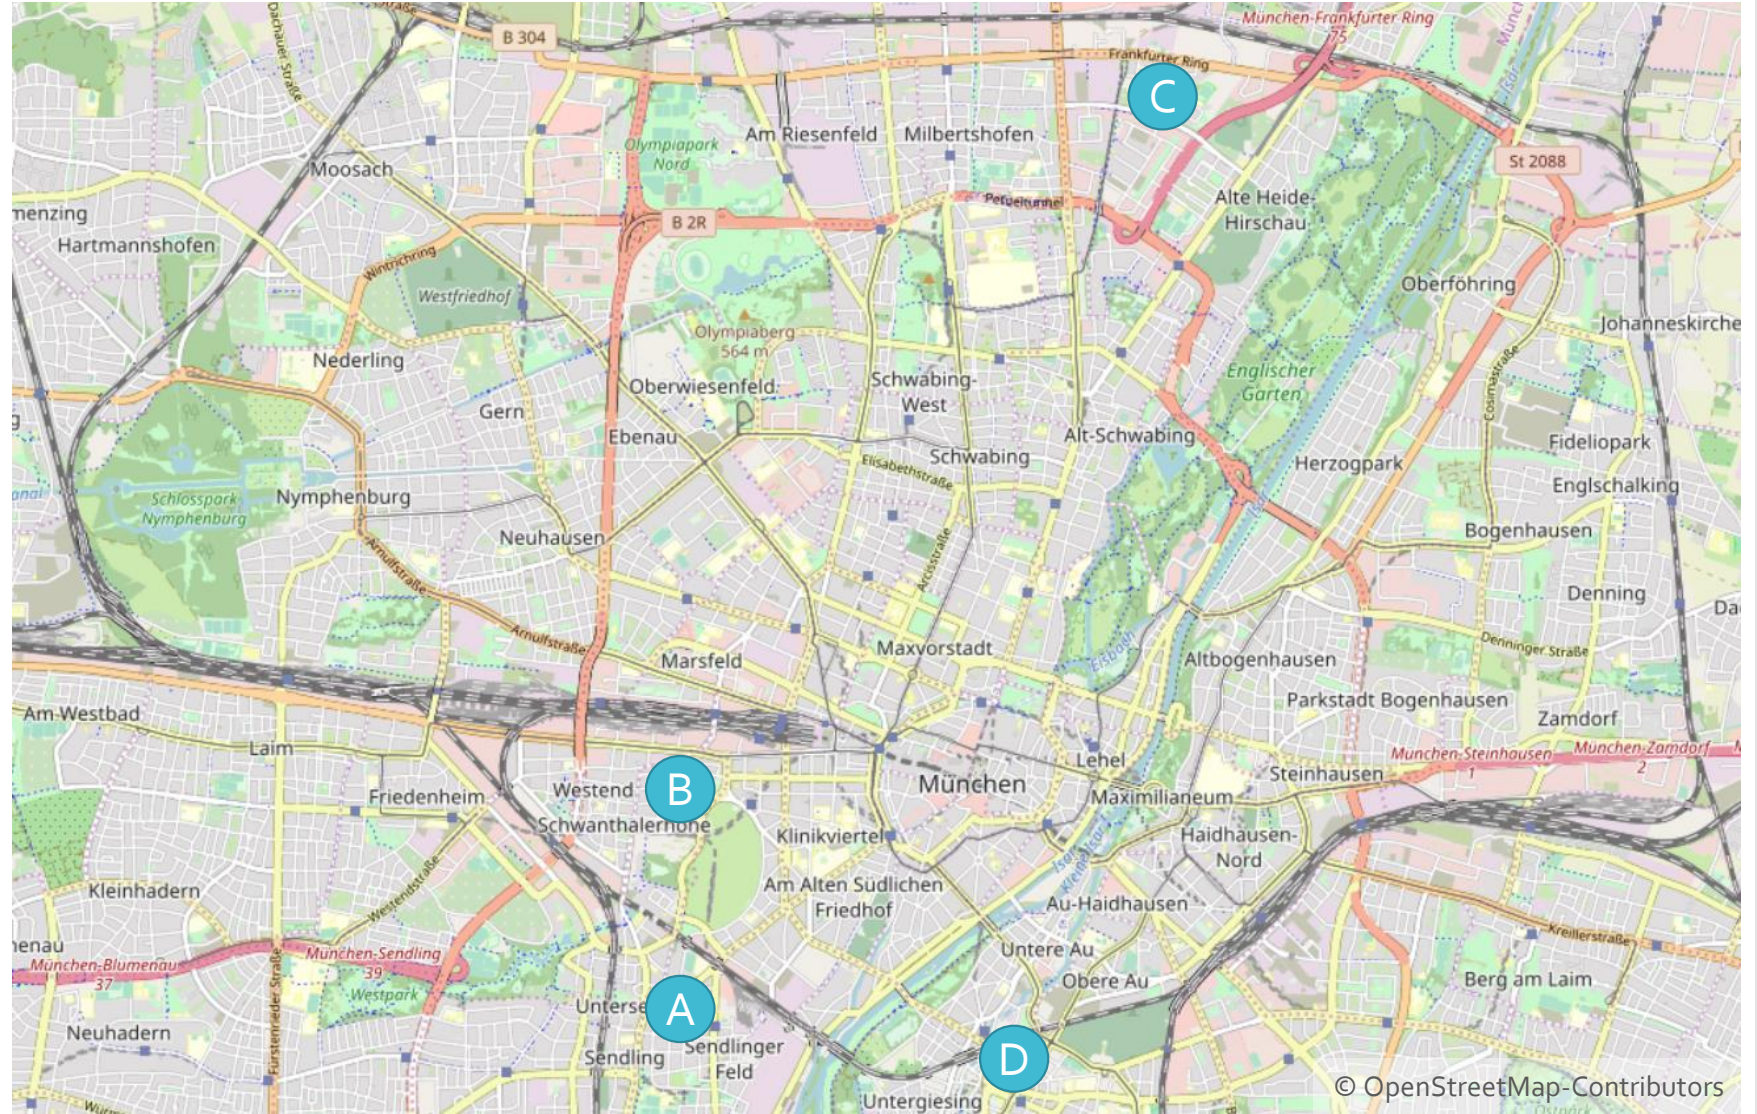

Overview: examples of child friendly planning

Example A
Street Festival
Aramstraße, 81371 Munich

Example B
Parklets,
Parkstraße 18, 80339 Munich

Example C
Mobility Sharepoint for Families
Max-Bill-Straße 2, 80807 Munich

Example D
Summer Street
Alpenplatz, 81541 Munich

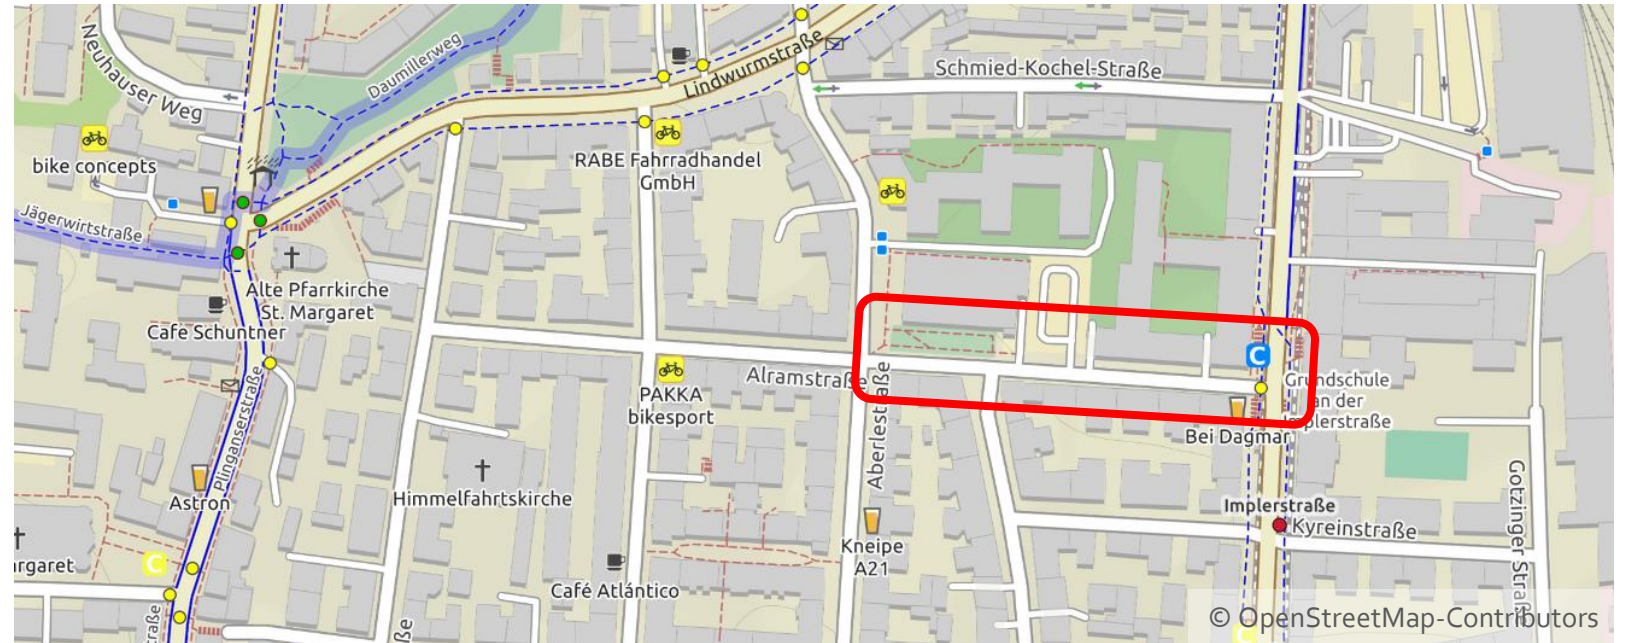

Example A: Street Festival

Where: Alramstraße, 81371
Munich

Time of Implementation:
29th of July 2018

Contact Person: Anja Grade,
anja.grade@muenchen.de

A street for living and playing outside instead of parking – for this reason, the Alramstraße in Munich was closed for car traffic for one day in July 2018. On that day, artists and citizens together turned the Alramstraße into a piece of art by painting on it with street marking crayons. The concept was rounded up by a barefoot path, some music and local food provided by shops from the neighborhood. Feedback from neighbors and organizers was very positive.

Example A: Street Festival

Where: Alramstraße

Time of Implementation:
29th of July 2017

Contact Person: Anja Grade,
anja.grade@muenchen.de

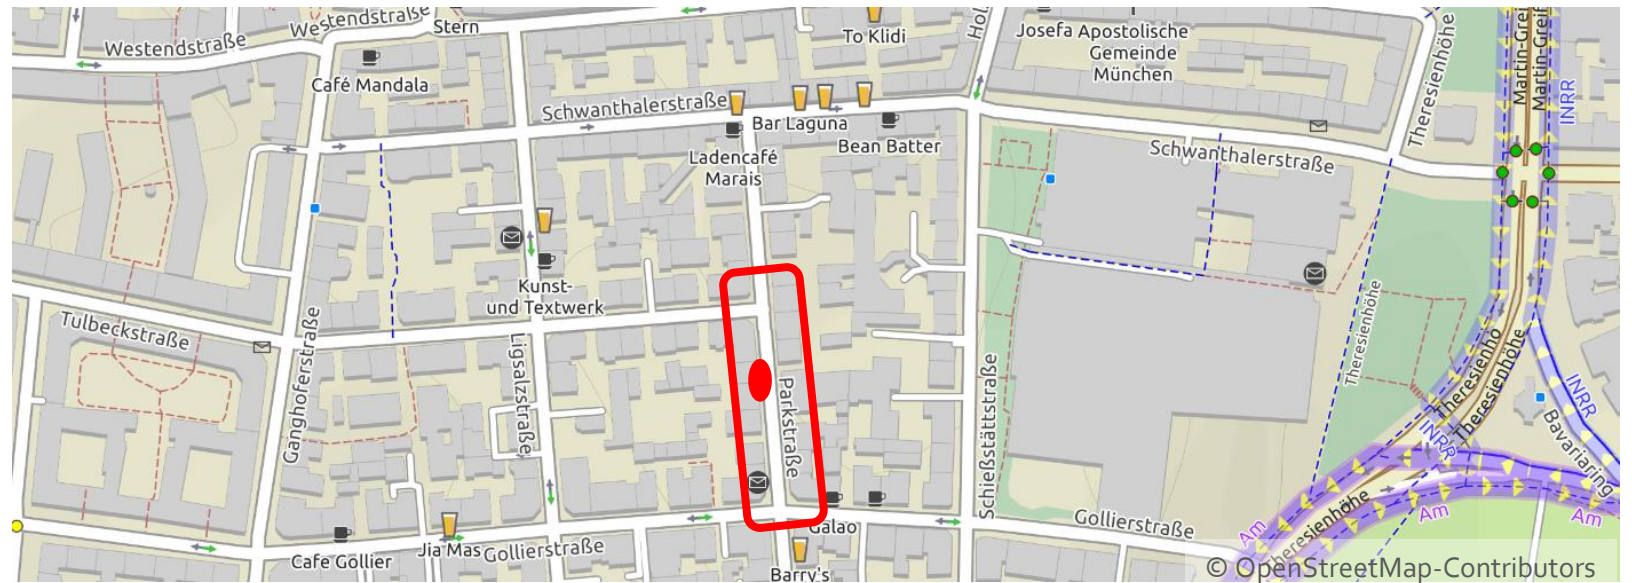

Example B: Parklets

Where: Parkstraße 18,
80339 Munich

Time of Implementation:
18th of July until 19th of
September 2019

Contact Person: Anja Grade,
anja.grade@muenchen.de

In summer 2019, several car parking bays were turned into parklets (lounge suits), inviting neighbors and visitors to rest and socialise. Altogether, there were three parklets installed in Munich Westend, providing wooden benches, tables, chalkboards and even a sandpit for children to play. Plants provided privacy screens and some cozy atmosphere. Due to the positive feedback, the pilot project will be continued during the ensuing summers.

Example B: Parklets

Where: Parkstraße 18,
80339 Munich

Time of Implementation:
18th of July until 19th of
September 2019

Contact Person: Anja Grade,
anja.grade@muenchen.de

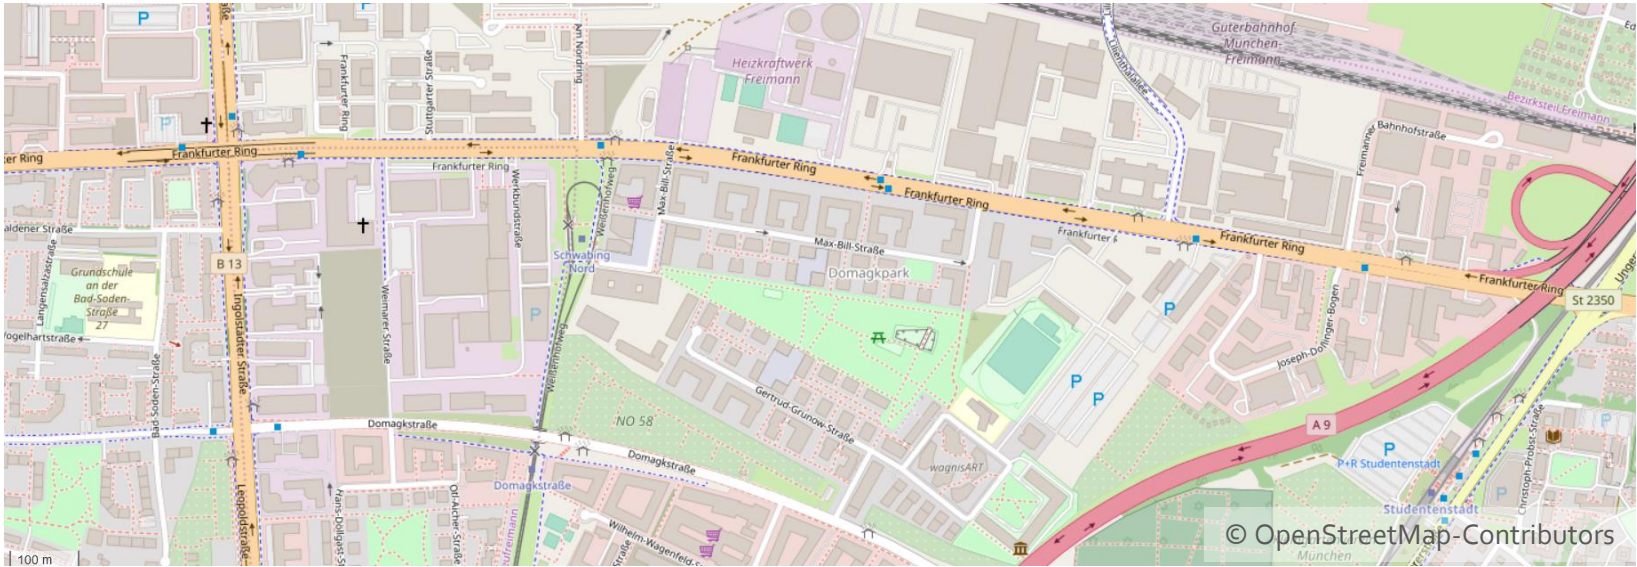

Example C: Mobility Sharepoint for Families

Where: Max-Bill-Straße 35

Time of Implementation: Since
November 2019

Contact Person: Merle Schroer,
merle.schroer@muenchen.de

In the past, having a baby often was linked to the purchase of a car. To encourage and support families in urban areas to be mobile without a private car, a mobility sharing point starts a new service. Neighbours can borrow an electric cargobike or pedelec with a trailer attached. Pedal scooters for children as well as helmets complement the mobility share points for families. The service is received very well, caretakers report a good utilization. There are plans to broaden the concept in the city, however, it is difficult to find caretakers as well as space for the vehicles and the equipment.

Example C: Mobility Sharepoint for Families

Where: Max-Bill-Straße 2,
80807 Munich

Time of Implementation: Since
November 2019

Contact Person: Merle Schroer,
merle.schroer@muenchen.de

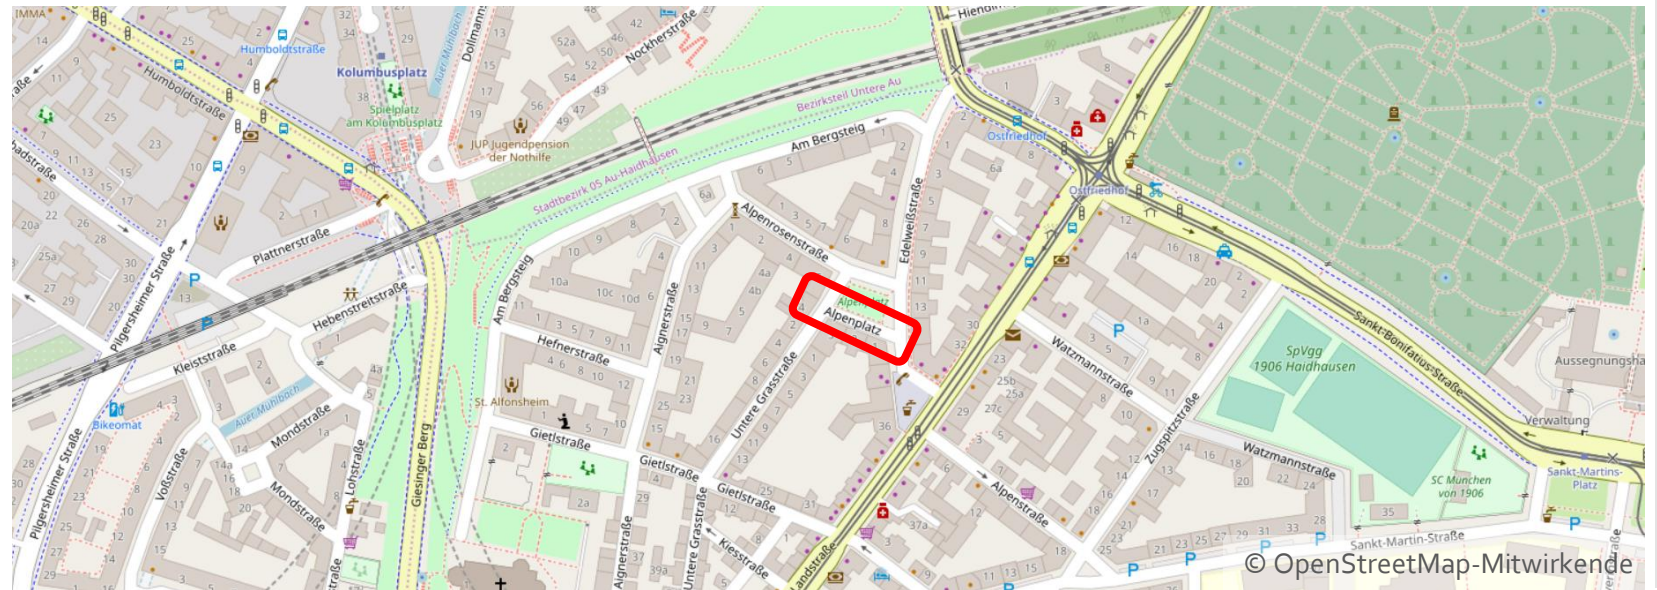

Example D: Summer Street

Where: Alpenplatz,
81541 Munich

Time of Implementation:
11th of July - 8th of September
2019

Contact Person: Anja Grade,
anja.grade@muenchen.de

In Munich, open space is scarce and often occupied by parking cars. With the purpose to create more open space for citizens, a street was closed for cars, providing neighbors and visitors some space to spend their time and – in the case of children – to play in a traffic safe area. The role model for this project comes from Stockholm, where so called “Summer Streets” are closed for car traffic during summer. Based on the experiences, the city of Munich recreates the project in different areas of the city.

Example D: Summer Street

Where: Alpenplatz,
81541 Munich

Time of Implementation:
11th of July - 8th of September
